

AIRTHINGS
FOR BUSINESS

Space Hub

Data Collection for the Airthings Ecosystem

- Securely connects up to 30 Airthings Sensors via Long Range Smart Link Technology
- Transmits Encrypted data via cellular or Ethernet
- Space Hub built in eSIM eliminates repetitive eSIMS in sensors, reducing installation costs
- Live Streaming Data uploads to Airthings cloud
- View real time readings, building conditions, and Virtual algorithms via Airthings app or Online Dashboard

Space Hub

Data Collection for the Airthings Ecosystem

DESCRIPTION

The Space Hub is an integral part of the Airthings ecosystem which collects data from in-range sensors and provides real-time access to all the information you need to optimize air quality in your building.

AIRTHINGS SMARTLINK

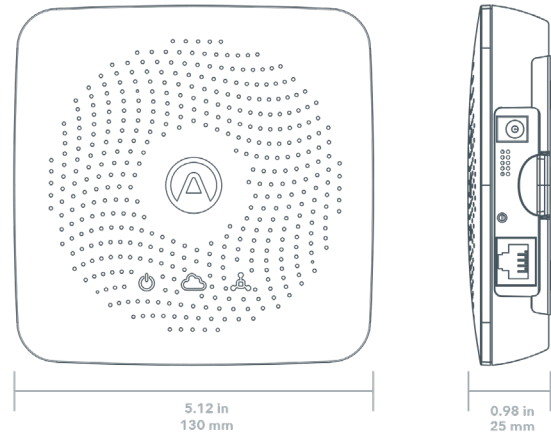

SmartLink is the Airthings proprietary long range and low power IoT protocol between Hub and Airthings devices. SmartLink connectivity can typically penetrate 3 thick walls/floors or 10 drywalls (non-loadbearing walls). Airthings devices will always connect to the closest Hub and additional Hubs can be installed to increase coverage. The mounting bracket allows for placing the Airthings for Business Solution products on a flat surface or fixing it with double-sided tape or screws to the wall.

PACKAGE CONTENT

Part Number: **SPACEHUB**

- Dimensions: 6.22 x 6.22 x 3.11 in (158 x 158 x 79 mm)
- Weight: 20.2 oz (574 g)
- Package Includes:
 - Airthings Space Hub
 - Ethernet Cable
 - Mounting bracket
 - Rubber bump pads (for flat surface)
 - Double-sided tape (for wall mount)
 - Power supply adaptor
 - US interchangeable supply blade
 - EU interchangeable supply blade
 - UK interchangeable supply blade
 - AU interchangeable supply blade

PRODUCT SPECIFICATIONS

Dimensions: 5.12 x 5.12 x 0.98 in (130 x 130 x 25 mm)

Weight: 9.1 oz (258 g)

PRODUCT CODES

Serial Number: 2820xxxxxx

HUB CELLULAR, MODEL 2820

Cellular connection with built-in eSIM or Ethernet connection.

EAN: 7090031108205

SKU: 282
